SUMMARY:

Renovated in 2003/4 by the current owner, this lovely renovation is a fabulous blend of traditional features, blended with modern convenience and amenities.

There is an area with ample off road parking — next to the pretty double arched entrance gate to the villa and its vine covered courtyard.

On entering the rear of the property, to the right is the private pool — with paved terraces all around for enjoying the sunshine. There is also a useful storage room here.

Entrance is via one of 2 doors from the courtyard to both the kitchen and to the living area.

The kitchen has a very traditional feel and still has the original bread oven as a feature and also has built-in appliances.

The living and dining area is open plan and spacious and has a wood burning stove. There is also a ground floor bedroom which has a feature Turkish arch and an ensuite shower room. There is also a guest WC — with washing machine — on this level.

On the upper floor is the master bedroom which has wooden ceilings and terrace with sea views. From the landing, there is access to a further terrace overlooking the pool — which enjoys panoramic views.

Also on this level, there is a further bathroom with a full bath and shower.
